6. 🏢 BRANDING

This can connect all your services together.

For example:

NEW BUSINESS BRANDING PACKAGE

Logo
↓
Business Cards
↓
Signboard
↓
T-Shirts
↓
Social Media Design
↓
Product Photography
↓
Promotional Video
↓
Digital Marketing

So a customer can purchase a **complete business launch package** rather than individual services.

⭐ VERY IMPORTANT: "START YOUR BUSINESS" PAGE

I would add one special page:

🚀 START YOUR BUSINESS WITH JREAL VISION

From Idea to Brand to Customers.

Customer chooses:

I have an idea
→ Business name
→ Logo
→ Brand identity
→ Products

→ Photography
→ Videos
→ Social media
→ Digital marketing
→ Printing
→ Delivery

This could become one of your strongest selling features.

🛒 **One unified checkout**

Don't make customers use separate systems.

Everything should eventually enter one cart:

Shop Products
+
Design Service
+
Printing
+
Photography
+
Videography
+
Digital Marketing

Example

A restaurant owner could order:

Service	**Price**
Logo Design	50,000
500 Business Cards	35,000
Menu Design	30,000
Product Photography	80,000
Promotional Video	100,000
Social Media Management	150,000

Service	Price
Total	**445,000 RWF**

Then:

Add to Cart → Checkout → Deposit/Payment → Order Confirmation → Production → Delivery
